# Safety & Security

Your safety and the security of your personal property are of the utmost concern to us who welcome you as our guest.

We urge you to take advantage of the following suggestions.

**Double Locks and Barlock:** For additional security, while in your room, utilize the deadbolt lock provided on your door upon entering. This will prevent the door from being opened by a regular room key. As an additional precaution, please secure the bar lock.

**Admittance:** Do not admit persons to your room without first making identification. A peephole is provided in your door for your convenience. If there is any doubt about a person's true identity, please contact the Front Desk.

**Keys:** Safeguard your key. Be sure to leave it with the desk clerk upon departure. Do not leave it in your room or in the door. Do not give your key to others.

**Automobiles:** Ensure that your car is locked, and do not leave any items of value visible.

We hope that these procedures will contribute to your comfort and well-being during your stay.

## Fire Safety

**Hotels are doing even more to make sure that guests are safe from fire.** Ask at the Front Desk if they have smoke detectors or automatic sprinklers. Take time to read and familiarize yourself with fire safety and escape information.

**Find the two exits nearest to your room.** Count the number of doors from your room to the exits. Make sure that they are unlocked and unblocked.

**Learn the layout of your room and how to unlock the door in the dark.** Put your room key and a flashlight close to where you sleep. In the event of fire, take your room key, flashlight and nothing else with you.

**Locate the fire alarm on your floor.** If you find a fire in your room or somewhere else, sound the alarm.

**When you hear the fire alarm, act, don't investigate.** Put these tips to work right away.

**If the fire is in your room, get out and close the door.** Once out, report the fire to the Front Desk.

**If the fire is not in your room, leave if you can.** First, feel the door. If it's cool, open it slowly, and go to the nearest exit.

**If your room door is hot, don't open it.** Your room may be the safest place to be. Call the Front Desk and report the fire and your location. Seal all cracks with wet towels. Shut off fans and air conditioners. Signal at your window or balcony for help, and wait to be rescued.

**Crawl low in smoke.** Fresh air will be at the floor. If you encounter smoke or fire at lower levels, turn around, and use another exit. Take your key so that you can go back to your room if you can't use your exits.

**Never use elevators during a fire.** They could stop at the fire floor. Use the interior stairs.

**REMINDER: Don't smoke in bed.** The most common cause of deadly hotel fires is smoking.

# Carbon Monoxide Safety Tips

## WARNING

Carbon Monoxide is a colorless, odorless, poisonous gas, and exposure can be fatal. Your room is equipped with a carbon monoxide detector.

Symptoms of carbon monoxide exposure may include:

Headache	Vomiting
Fatigue	Blurred vision
Weakness	Dizziness
Nausea	Loss of muscle coordination
Shortness of breath	Collapse
Confusion	Loss of consciousness <sup>1</sup>

What to do if a carbon monoxide alarm is sounding or if you experience any symptoms of carbon monoxide exposure:

- Never ignore a carbon monoxide alarm that is sounding.
- Immediately move outside to fresh air.
- Advise the hotel front desk.
- Call 911, emergency services, or the fire department.
- Do a head count to check that all people in your party are accounted for.
- Do not reenter the premises until the emergency services responders have given you permission.<sup>2</sup>

<sup>1</sup> Source of symptom list: Consumer Product Safety Commission & Mayo Clinic.

<sup>2</sup> Source of recommended responses to sounding alarm or symptoms: Consumer Product Safety Commission.
